The Enlarged Meeting of the Fifth Plenary Meeting of the Eighth Central Committee of the Workers’ Party of Korea was held at the conference hall of the office building of the Party Central Committee from June 8 to 10 amid the accelerated grand all-people advance for glorifying this historic year as a great watershed in developing the revolution while braving the unprecedented difficulties facing the nation with the faith, will and unity peculiar to Juche Korea under the guidance of the ever-victorious Party Central Committee.

The meeting, which was convened amid great expectations and interest of all the Party members and other people of the country, made an interim review of the implementation of the major Party and state policies for 2022, which are of key importance in carrying out the decisions of the Eighth Party Congress, decided on the work orientation and fighting policies for the second half of the year and discussed the action plans for powerfully and correctly pushing ahead with the important national affairs.

Kim Jong Un, general secretary of the Workers’ Party of Korea, attended the meeting.

When he took the platform, all the participants burst into thunderous cheers as a token of their highest tribute to him, the great leader of the WPK and outstanding leader of the Juche revolution.

The meeting was attended by members of the Presidium of the Political Bureau of the WPK Central Committee, members and alternate members of the Political Bureau of the WPK Central Committee and members and alternate members of the WPK Central Committee.

Present there as observers were officials of the departments of the Party Central Committee and leading officials of ministries, national agencies, provincial-level guidance organs, cities, counties and major industrial establishments.

The presidium of the meeting was formed by members of the Political Bureau of the Party Central Committee.

The Political Bureau of the WPK Central Committee authorized Kim Jong Un to preside over the meeting.

The General Secretary referred to the purpose and importance of the convening of the plenary meeting.

He said that the first half of the year
Enlarged Meeting of Fifth Plenary Meeting of Eighth WPK Central Committee held

The following agenda items were brought up at the plenary meeting:

1. Organizational matters
2. On the interim review of the implementation of major Party and state policies for 2022 and measures
3. On the tasks for controlling the epidemic situation and building the state anti-epidemic capability
4. On amending and supplementing some parts of the Party Rules and guidelines to them
5. The plenary meeting unanimously approved the agenda items.
6. It discussed the first agenda item, thereby perseveringly pressing ahead with the implementation of the economic policies.
7. For the past one month since the activation of the top emergency anti-epidemic system, the economic field underwent an important period of experiencing and training for further developing its capability for coping with crisis and enhancing its ability to meticulously organize and guide operations, thus gaining and learning invaluable experience and lessons.

The construction sector pushed ahead with the projects for building large modern streets for providing the people with better living conditions and environment and different production bases as a follow-up to the last year's efforts, and important projects are nearing completion.

Precious successes were also made in the work to upgrade the major national industrial bases and create models in developing the local industry, due to the decisions of the Fourth Plenary Meeting of the Eighth Central Committee of the Party. The Party Central Committee heard, analyzed and appraised the reports.

The General Secretary made a conclusion on the second agenda item. He referred to the successes achieved in the aspects of state political activities and management, national development and response to and management of crisis for the past six months. In the first half of the year the irresistible might of Juche-oriented socialism was clearly demonstrated to the world on different political occasions by raising the spirit of our-lake, our-system and our-state-first principles and further cementing the single-hearted unity of the Party, state and people.

The economic field promptly tackled the decisions made at the plenary meeting of the Party Central Committee on shoring up overall production and providing a firm guarantee for carrying out the five-year plan, thus boosting production in many of the Party's sectors and keeping the upward trend of the overall economy.

The success deserving important appreciation in implementing the state economic policies is that stability and confidence of all the people in the Party's leadership and policies is, never to be compared with any material assets, the General Secretary declared the will of the Party Central Committee to lead all state affairs to success so as to powerfully promote a faster development in all fields.

The conclusion pointed out the resolutions manifested in implementing the Party's policies.
Enlarged Meeting of Fifth Plenary Meeting of Eighth WPK Central Committee held

It also referred to the practical ways for powerfully accelerating the implementation of the Party’s agricultural policy. Among them, the issue of making the Party’s new policy of agricultural revolution prove effective from the first year of its enforcement by successfully concluding the farming of wheat and barley that were planted as earlier crops, the issue of directing all efforts to making full advance preparations for protecting crops from natural disasters as much as possible, the issue of putting manuring and cultivation of crops on a higher scientific basis, the issue of increasing the proportion of the farm work done by machines and the issue of strengthening scientific guidance over and state support for farming. It specified the feasible measures to be taken in the light industrial sector to substantially promote the living standards of the people by waging a vigorous campaign for increased production with the demands of the people in their life as the yardstick.

The General Secretary placed a special emphasis on having a proper viewpoint on education at present. Saying that education is not the work whose results are immediately visible but the long-term one and that correct efforts for it are the springboard to future development, he called for further enhancing guidance and assistance to the nationwide improvement in education, including the Party and policy-oriented guidance on the educational work and technical guidance on educational contents.

The conclusion stressed the importance of the roles of art and literature and media in dynamically encouraging the all-people advance this year, which is accompanied by unprecedented severe trials, and giving full play to the revolutionary spirit of implementing the Party’s policies on all fronts of socialist construction, and indicated the orientation of the struggle for them.

The General Secretary stressed the need to steadily direct great efforts to strengthening the national defence capability.

The current security environment of the country is very serious and the surrounding situation carries a danger of being further aggravated. This urgently calls upon the DPRK to attain the goal of bolstering the national defence capability as soon as possible.

The General Secretary said that the right to self-defence is an issue of defending sovereignty, clarifying once again the Party’s inviolable fighting principle of power for power and head-on contest in defending the sovereignty. And he set forth the militant tasks to be pushed forward by the armed forces of the DPRK and the national defence research sector.

The conclusion clarified the principles and strategic and tactical orientations to be maintained in the struggle against the enemy and in the field of foreign affairs. It strictly analysed and reviewed the struggle against anti-socialist and non-socialist practices waged in the first half of the year and referred to the principled issues arising in steadily enhancing the intensity of the struggle.

The General Secretary stressed the need to steadily direct great efforts to strengthening the national defence capability.

The current security environment of the country is very serious and the surrounding situation carries a danger of being further aggravated. This urgently calls upon the DPRK to attain the goal of bolstering the national defence capability as soon as possible.

And he set forth the militant tasks to be pushed forward by the armed forces of the DPRK and the national defence research sector.

The conclusion clarified the principles and strategic and tactical orientations to be maintained in the struggle against the enemy and in the field of foreign affairs. It strictly analysed and reviewed the struggle against anti-socialist and non-socialist practices waged in the first half of the year and referred to the principled issues arising in steadily enhancing the intensity of the struggle.

It indicated the directions of work to achieve a signal success by enhancing the responsibility, role and organizing ability of the Party organizations at all levels and their officials and conducting the Party’s guidance over the economic work in an effective way.

The General Secretary called for opening up a new phase of the vigorous national development by taking the current harsh and difficult period unprecedented in the history as an opportunity of getting stronger and more tested and displaying the firm will and stamina and sternness of spirit, and for doing our best to make every work for this year be correctly executed at the scheduled development speed.

The meeting discussed the third agenda item “On the tasks for controlling the current emergency anti-epidemic situation and building the state anti-epidemic capability.”

The General Secretary made a report clarifying the strategic and tactical plans for finally defining the multi-national epidemic crisis, restoring the stability and vigorously promoting the building of the state anti-epidemic capability and its capacity to cope with crises.

He referred to the intensive attention of discussing the anti-epidemic issue as a separate agenda item at the current plenary meeting after several major Party meetings had been held to discuss the emergency anti-epidemic situation since the outbreak of the global malignant pandemic.

His important conclusion serves as a valuable action programme and a powerful militant banner as it showed the clearest guideline of struggle and scientific ways for reversing the current severe situation into an opportunity of bolstering our two-strength and internal driving force and making definite progress in the year 2022, an important stage in implementing the five-year plan of development and change.

The meeting discussed the agenda item “On the tasks for controlling the current emergency anti-epidemic situation and building the state anti-epidemic capability.”

The General Secretary made a report clarifying the strategic and tactical plans for finally defining the multi-national epidemic crisis, restoring the stability and vigorously promoting the building of the state anti-epidemic capability and its capacity to cope with crises.

He referred to the intensive attention of discussing the anti-epidemic issue as a separate agenda item at the current plenary meeting after several major Party meetings had been held to discuss the emergency anti-epidemic situation since the outbreak of the global malignant pandemic.

He said that under the current situation in which the state anti-epidemic work entered a new stage of turning into prevention work based on blockade and eradication of the epidemic from the blockade-bound prevention after the unprecedented serious crisis, the urgent task facing the Party and state is to immediately remedy the shortcomings and evils in the anti-epidemic work and take decisive steps for building up the country’s anti-epidemic capability.

He said that the overall state anti-epidemic work should be correctly examined and the more intensified anti-epidemic policy firmly and firmly guaranteed the security of social construction and the state administration and provide the people with a reliable anti-epidemic environment.

He also underlined the need and urgency to strengthen the country’s foundations for public health and speed up the building of the anti-epidemic capacity. He called for making an in-depth analysis and review of the evils and shortcomings revealed in every sector during the top emergency anti-epidemic work from a critical and developmental viewpoint and adjusting and reinforcing in a more scientific and...

Korea Daily

(2022-06-16)

Korea Daily/Chung Nam Bureau

Chung Nam Bureau reports that the number of new cases of COVID-19 has been steadily decreasing, and the situation in DPRK is now COVID-19 situation.

More than 45 540 contracted people died and over 55 250 fully recovered in the DPRK from June 1 to June 9. A total of more than 3 449 920 people caught fever nationwide between late April and 18:00 of June 9. Of them, over 2 465 860 (98.06%) were fully recovered and some 980 (0.93%) were in hospital. The death rate of the total is now 0.005%.

In order to prevent the spread of COVID-19, mass-scale anti-epidemic activities are carried out nationwide. Anti-epidemic committees at all levels are operating effectively to prevent the occurrence and spread of COVID-19.

The DPRK government has made a decision to promote anti-epidemic measures and activities nationwide in order to prevent and control the COVID-19 situation. The government has been working hard to complete the nationwide survey of anti-epidemic activities.

Local governments are taking optimized anti-epidemic measures, such as scientific and specific analysis and corresponding action plans against the COVID-19 situation.

The total number of new cases of COVID-19 has been steadily decreasing, and the situation in DPRK is now COVID-19 situation. The death rate of the total is now 0.005%.

Mastermind behind scheme to foment discord and undermine cooperation in the region

By Song Jong Ho Ⅱ

The US is in its final attempt to create discord and undermine cooperation in the region, and it is fomenting discord by undermining the unified guidance and activities.

Chinese media, in giving the US a hard time, published an article mentioning that the US is in its attempt to win over the ADB, which follows the unified guidance and activities.

Recently, a US foreign policy analyst also criticized the US for the “unilateral, discriminatory and coercive approach.”

By Song Jong Ho Ⅱ

With concerted efforts against dominationist schemes

By Choe Yang Nam Ⅱ

The 21st ALBA-TCP Alliance Bolivia summit was held in La Paz, Bolivia, and the participants met on May 27 in the city. With heads of state and government and representatives of 11 member nations in attendance.

In order to maintain its unity and cooperation, the ALBA-TCP countries, on the day of the summit, attempted to undertake a “human rights cooperative programme” that would better do more necessary work for cooperation in the Asean-Pacific region.

The international community also voices growing scepticism over the “human rights” and “humanitarian” which are allegedly advanced merely for gaining the huge economic gains.

The US has always been following the US foreign policy analyst’s advice.

By Song Jong Ho Ⅱ

Global energy, food security in jeopardy

By Pak Song Min Ⅱ

Recently, the global community is being blowed due to the West’s sanctions against Russia and the US-oriented political situation, among others.

The West is putting the main emphasis on its political war against Russia’s energy export.

In this connection, it is also impossible to ignore the ban on Russian energy exports.

The US had suffered considerable harm to the energy security of the world.

The reduction of Russian energy exports of Russia is said to have a widely large impact on the global volume of energy consumption.

Experts predict that the reduction of Russian energy export will have a severe impact on the Western market.

Russia has a severe impact on the economy of the Western market.

If the global energy prices would remain at a high level in the future.

With a record-high inflation rate last April, the economic situation of the world has become more serious.

The US has also been found out the energy market situation.

ON LIST OF TOP TEN COACHES OF COUNTRY
FOUR TIMES

By Han Kwi Hun PT

Ri Chol Nam (pictured), Merited Athlete and weightlifting coach of the April 25 Sports Club, is an experienced coach who trained four Merited Athletes and therefore weightlifters are proud of being coached by him. Ri Chong Song, who won six gold medals and set three national records last year, also attributes his success to the coach. Ri Chol Nam undertook the instruction and guidance of training while developing Chong Song’s merit.

He makes an in-depth analysis of physical and technical preparedness of players as he racks his brains all the time and gives instruction and guidance suited to it. Every coach can claim to do so, but Chol Nam’s merit is that he is more correct and accurate in holding key points.

“When Ri Chong Song snatched three golds at the Mangyongdae Prize Games in celebration of the Day of the Sun, I felt dissatisfaction greater than joy. He might have set a new record, but he failed to do so. That was all my fault,” Ri Chol Nam recalled.

He analyzed his fault in the process of instruction and guidance of training, worked out a new training plan and exerted himself to give relevant guidance.

His goal was to make Ri Chong Song perform all the technical movements perfectly while enabling him to display his ability to the full.

Thanks to his energetic coaching, Ri Chong Song bagged three gold medals and broke national records in three categories in the men’s 81kg weightlifting at the national championships last year.

In recognition of the success, Ri Chol Nam was chosen as one of the top ten coaches of the DPRK in 2021. As a result, he was honoured with such glory four times.

He is dedicating wisdom and passion with the ambition to train all players in his charge into world weightlifting aces.

Yangdok Stewartia koreana

By Kim Kang Ju PT

Yangdok Stewartia koreana is distributed on the southern slope of the Puktaebong Mountains some ten kilometres away from Yangdok county town in South Phyongan Province. It is evenly spread in the forest of Mongolian oaks.

The height of the tallest tree is 25m, the diameter at the height of 1-1.5 metres is 35cm, the average height is 12m and the diameter at the height of 1-1.5 metres on average is 25cm. Yangdok Stewartia koreana is a living monument which has great academic significance in studying the distribution and features of the tree.
