Undying exploits for great historical change

By Choe Yong Nam PT

The Korean people held the respected Comrade Kim Jong Un in high esteem as president of the State Affairs of the DPRK on June 29 2016.

Celebrating this significant day, the Korean people recollect again the immortal exploits of their leader who made history by bringing about great change on this land.

Over the past 10-odd years since the beginning of the new century of the Juche era, the DPRK has undergone a surprising sea change.

Ideal streets like Changjon, Mirae Scientists, Ryomyong, Songhwa and Hwasong have sprung up and a terraced houses district has been erected on the Pothong riverside, to be called a village of patriots.

Not only houses but also such cultural and leisure activity and other service centres have been built as the Mirim Riding Club, the Mirim Aviation Club, the Ryugyong Health Complex, the People’s Open-air Ice Rink, the Munmu Water Park and the Amusement Park of Kaeson Youth Park, providing every convenience for the people to enjoy civilization.

A new era of change in rural communities has been ushered in, with residents admiring the views of their new villages, saying they have changed beyond recognition, and the news about house moving making the front page of most of the media every day.

Today the geopolitical position of the DPRK remains unchanged, but a great change has taken place in its international position.

As the magnificent scenes of the military parades which showed the qualitative changes in scale, form and content demonstrated, the DPRK has proudly entered the front rank of the world military powers.

Sometimes the days forever when the enemy threatened and blackmailed the country with sanctions.

Such a great change that the country has risen to undreamed-of heights of power and dignity in the 5000-year history of the Korean nation was brought about in the period which can be claimed to be the hardest time with manifold difficulties in the history of development of the DPRK.

In the past 10-odd years the hostile forces went to extremes in the moves to trample on the country’s sovereignty and rights to development and existence, the extreme natural disasters swept away many precious things in a moment and the world health crisis occurred, posing a grave threat to the lives and safety of the Korean people.

The victory they have achieved in the face of too harsh difficulties for a country and a nation to bear is a priceless fruit of the outstanding leadership of the respected Comrade Kim Jong Un.

Cherishing a grand aspiration to build without fail a highly dignified socialist country in which the people enjoy all blessings on this land, he illuminates the most scientific way to fulfill it and unites all people behind him to win victory after victory.

He devotes untiring efforts to increasing the invincible power that remains unperturbed under any threat by the hostile forces and ensuring the happy laughter of the people and does not mind danger to his life on the way.

The people are the standard of all his judgments.

If he sees special things, he first asks if the people like it and is very pleased to say that if they like them, they would be good and if they like them, our Party has obviously done a good thing.

It is the will and faith of the Korean people to fulfill their dream and ideal under the leadership of the respected Comrade Kim Jong Un and enjoy all happiness and honour on the way forever as they did in the past 10-odd years.

### Pyongyang mass rally held on Day of Anti-US Struggle

KCNA

Pyongyang mass rallies took place at different parts of the municipality on June 25, the day of struggle against US imperialism.

They brought together more than 120 000 working people and youth and students in the city.

Present there were Ri Il Hwan and Pak Thae Song, secretaries of the Central Committee of the Workers’ Party of Korea, Kim Su Gil, chief secretary of the Pyongyang Municipal Committee of the WPK, Jon Sung Guk, vice-premier of the Cabinet, Ri Tu Song, department director of the Central Committee of the WPK, officials of working people’s organizations and officials and working people from institutions and industrial establishments and youth and students in the city.

At the meetings speakers said that June 25 is kept in the minds of the Korean people as the wounds of aggression started by the US imperialists and the war deterrent of blood more than 70 years ago.

They said that the Korean people have firmly grasped the strongest absolute weapon to punish the US imperialists and the war deterrent for self-defence with which to keep every enemy from daring to provoke, true to the Party’s idea of building up the military capability for self-defence.

The speakers stressed it is the bounden duty of our generation to settle accounts with the US imperialists and the avengers on this land burning with the indomitable will to revenge the enemy will mercilessly punish and thoroughly eliminate the US imperialists, the sworn enemy of the Korean people, by a resolute sacred war of revenge.

Then followed demonstrations.

The participants marched, shouting slogans of annihilating the US imperialists and the group of traitors who are resorting to reckless war moves against the strong DPRK, not abandoning their daydream of stifling it even at this moment.

The Pyongyang Times is serially introducing the significance of the victory in the Fatherland Liberation War the Korean people won at the cost of their blood.

70th anniversary of Victory in Fatherland Liberation War

July has come when we celebrate the 70th anniversary of victory in the great Fatherland Liberation War.

On July 27 1953, the Democratic People’s Republic of Korea defeated the US imperialists, who started the war of aggression against it with the wild ambition for world domination, and won victory in the war.

The victory of the Korean people in the war which is likened to a confrontation between a rifle and an atomic bomb adorned a page of the world history of war as a miracle and marked a turning point in the destiny and social progress of the Korean people and the development of the world political situation.

The Editorial Board of The Pyongyang Times is serially introducing the significance of the victory in the Fatherland Liberation War the Korean people won.
Premier Kim inspects different sectors

**KCNIA**

An event took place on June 28 in Pyongyang to mark the completion of the project for remodeling the interior of the Friendship Tower. Premier Kim, who is also Secretary of the Central Committee of the Party, held a ceremony to turn over the tower and inspect different sectors.

Premier Kim inspected the various projects on the 70th anniversary of the victory in the Fatherland Liberation War. The tower was remodeled with eager attention to details and in a contemporary manner to become a venue that reflects the prestige of the Democratic People’s Republic of Korea.

While Premier Kim inspected the various projects, he paid his respects to the late Korean People’s Army (KPA) soldiers and the Workers’ Party of Korea (WPK) martyrs who defended the country against all enemies.

The Premier expressed the belief that the tower will play a significant role in upholding the national prestige.

New villages built, farmers move into new houses in South Phyongan

**KCNIA**

An event took place on June 27 in South Phyongan Province to mark the completion of the construction project for the new villages. Farmers moved into the new houses in the newly built villages.

The Premier stressed that the completion of the construction project for the new villages was a meaningful step in the implementation of the DPRK’s economic plan and in the task of increasing the productive forces of the country.

Skilled workers competition-2023 comes under spotlight

By Ri Sun Jong

The Amnokgang Toothpaste Factory was awarded for winning six gold medals in the 2023 Small Unit Workers’ Skills Competition, which was held in Sinuiju Mirae Shop.

The contest was held with the aim of improving the skill level of workers in various economic sectors and selecting the best talents of the upcoming generation.

The contest is held every year to foster skilled workers and promote competition toward achieving productivity. This year’s skills competition was held on June 7 and 16.

The participants of the competition, who are selected by the managers and managers, are awarded medals in various categories according to the results of the competition.

Among the competitive sectors were the toothpaste industry and various economic sectors. In the toothpaste industry, the factory competed in several different categories, including quality control, production, and packaging.

The factory has been awarded medals in the past years, and this year’s performance has been outstanding.

The factory has been using advanced technology and modern equipment to improve the quality of its products. This year, the factory is expecting to continue its success in the competition.

The factory plans to continue its efforts to improve the quality of its products, and to encourage other factories to join the competition and support the development of the local economy. The factory plans to continue its efforts to promote the development of the local economy.
Conservation of ecological environment gathers momentum

Beautiful landscapes created, water quality improved

Researchers of Academy of Urban Architecture assess the quality of water in flooding season

In the DPRK there is one of the units which leads in the field of ecological environment protection, the Taedong River. Researchers of Pyongyang University of Architecture and many other institutes directly monitored the quality of water in the flooding season.

The Pyongyang University of Architecture and many other institutes performed several series of experiments in the field in order to strictly purify the waste water. It also continues to improve the operation and management system of this process.

The Jangjung Mine discovered that the monitor of its tailing settling basin contains microorganisms, the treatment of which could increase the amount of waste water much to enhance the environment and grow more timber for covering good timber resources on the slope of the embankment. It also dug drainage ditches and dug drainage ditches on both sides of the roads to prevent such wastes from coming into a united and harmonious environment.

The Chollima era, she thought, was near 60, she did not hesitate to contribute everything she had. That day, too, she was the first to enter the operating room.

She had got the third-degree injuries. She had bled too badly. Her veins could never be seen. Then, she was given a patient first aid treatment. The boy Pang Ha Su, who had almost given up his life, has worked with her for decades, and is now an example for the collective and the country over the whole DPRK.

AnKyongSil has donated her blood and skin for many patients and affairs. That day, too, she was the first to enter the operating room. For the people, she donated her blood and skin for many patients, trained new-generation nurses in times of emergency and performed numerous medical duties for society, the country and over the whole DPRK.

It is not an easy job to nurse even a single patient in a family. Still it is not difficult for a nurse to become a hero in the eyes of millions.

It is not difficult to become a hero in the eyes of millions when you do your best, and keep on improving yourself. An Kyong Sil is a typical example.

As every province strives to contribute to their completion.

As a designer for 40 years, he had ever shown his skill in designing covering for a lot of buildings and buildings for landscaping like Phlox subulata planted in hundreds of places.

Many turn out to Hwasong area for night assistance.

By Sin Pyol P’Yŏn

The second-stage construction site of 50 000 flats in Pyongyang is crowded with people offering right assistance to the project.

“Many working people come to the housing construction site every day to take part in the project. They offer the assistance shock brigade activity after a day’s work. Their efforts are appreciated,” said Pak Jong Chol, panel head of the headquarters for the construction site.

“We had brainstormed how to assist during the rainy season, and asked the workers to come and join us,” said Kim Un Chol, student at Kim Jong Suk High School.

“I want to do something for my country as my grandparents did. By doing so, I will remember their contribution.”

Story about the growth of brother-and-sister threesome

By To Kyong Chol P’Yŏn

People have been deeply touched by the story of a paralysed brother-and-sister threesome who have grown in the DPRK which is filled with virtues and efforts like theirs.

War veteran becomes father in his 70s

“When I retired in 1995, our country was undergoing hard times and so it was impossible to make plans for the future. Our hope was to keep the peace and our children safe,” said Pak Jong Chol, panel head of the headquarters for the construction site.

The flats are about one-third of the project. The workers, including graduates from the Pyongyang University of Science and Technology, have volunteered to work at the construction site in the capital.

“I want to perform proud feats on this land. I was heartbroken to see my son fighting on the border, but my daughter is safe,” said Kim Un Chol, student at Kim Jong Suk High School.

A great number of young people who joined the construction site every day have performed admirable deeds and contributed to the construction of a new capital to the youth. In heavy response to the theme of the construction site, even universities and colleges including the universities of education and related educational institutions volunteered to work at the construction site in the capital.

“This is where I was born and lived, my capital and my Pyongyang.”

There was little enthusiasm among the delegates arising out of the US imperialism and all places arise the enthusiasm of the people who are the target and are attacked by the US imperialism. They are all the people of the Korean peninsula. The people are rising up to give a trouncing to the military imperialism of the US. The people from all walks of life have emerged and have shamed the US imperialism in the face of the world community. The people are preparing to send a message to the US that the people of the Korean peninsula will rise up and make their voices heard all over the world.

The working people's organizations vow vengeance against the US imperialists.

South Korea: Mobile nuclear arsenal of the US

Design of US-embellished war games: To create favourable military environment for occupying the Korean peninsula

Korea War, the US has conducted various nuclear war exercises in the northern half of the peninsula, in direct conflict with the DPRK's efforts for bolstering the cause of national reunification and peace and security on the Korean peninsula. The US has been consistently demonstrating its hostile military intentions by conducting various military exercises and war games in the area. These exercises are designed to escalate tensions and create a military environment conducive to a war on the Korean peninsula.

The US has been conducting joint military exercises with South Korea, which are intended to create a military environment conducive to a war on the Korean peninsula. These exercises involve the deployment of various types of military equipment, including nuclear-capable missiles and jet fighters. The US has also been conducting joint naval maneuvers, which are designed to create a military environment conducive to a war on the Korean peninsula.

The 2023 first-division table tennis technical innovation tournament (second round) was held at the Table Tennis Gymnasium on Pyongyang’s Chongchun Street in mid-June.

The competition attracted special interest of experts and fans as it brought together excellent players in its first round matches in February and the table tennis event of the 2023 Spring National Sports Festival.

Team events took place on a round-robin basis, heralding the beginning of a ding-dong fight.

The Amnokgang and Kigwancha, the odds-on favourite, won the final matches in the men’s and women’s team events respectively.

Male and female doubles and singles were played on a knock-out basis.

The final four teams of the male and female doubles were the April 25, Amnokgang and Pyongyang (two teams) on the men’s side and Kigwancha, Hwaepul, and Sobacksu teams on the women’s. The final matches were played between the April 25 and Pyongyang teams in the men’s doubles and between Kigwancha and Hwaepul in the women’s doubles.

As all teams were powerful, the matches were so close and fierce that even experts found it difficult to predict which one would win. Finally, the April 25 male players and Kigwancha female players won the titles.

The crowds thronged into the gymnasium to see the singles final to decide the national champion.

Ri Jong Sik from the Amnokgang won the men’s singles to bag all gold medals at the three singles events of the year.

The spectators broke into thunderous applause for him who took up his comfortable position as a table tennis king.

Cha Su Yong, also from the Amnokgang, lifted the trophy.

“...I played the final match very composedly with an unbelievably surprising energy and at an upbeat tempo. I know that it is not a gift by chance. Victory depends on who train harder and resolutely to acquire a variety of table tennis techniques perfectly to suit their constitutions, I think,” said Ri Jong Sik.

Cha Su Yong told the journalists that she would redouble efforts as she was faced with a new task to defend her title though she was pleased to win the competition.

Mixed doubles were also very fierce.

Two Hwaepul teams and the Pyongyang and Kigwancha met in the semi-finals of the mixed doubles.

The match between a Hwaepul team and Kigwancha was breathtaking and nail-biting with thrilling scenes unfolding in succession.

After being lost in the first two rounds to the opponent, the Kigwancha players were still losing in the third round by a wide margin of 6-10 and the spectators believed that it was really impossible for them to win the match. But against their expectations, the match took a turn for the better in favour of them with only one point left.

They employed a variety of tactics to beat the opponent in the third and fourth rounds. They won the fifth round again 11-5 to reverse the tide of the battle.

In the same heightened spirit, they trounced the Pyongyang team 3-0 in the final match to win the title.
